The Fair—Butte County Style (hands-on)

Below Part V on the registration form

In lieu of limiting your access to one or two workshops, Fall Board Meeting Chairman Ilene Herringer and Buttes District members are planning an incredible opportunity for you to experience several different hands-on activities and several demonstrations in a two-hour event that will take you back to the fun, excitement and memories when you join us for **The Fair—Butte County Style**. Stroll from station to station; participate in the scavenger hunt and don't forget to cast your People's Choice ballot voting for your favorite activity station. During the Butte County Fair held in late August, volunteers from Buttes District staff the Floriculture Building. We've put life back into "the stills" and generated a dramatic increase in the number of fair-goers visiting the building and the fair. Nearly every hour the building is open, hands-on activities, demonstrations and video presentations are available to educate the fair-goers making the fair experience memorable. Almost all of the activities available to you during **The Fair—Butte County Style** two-hour experience have been offered during the Butte County Fair.

Any of these activities can easily be duplicated by clubs in your district at almost any community event. You'll have a wonderful experience, items to take home, time to visit with friends and you will have invaluable information to share with the members of your club and district. People love experiences and sharing them with the community is a wonderful way to attract new members. Since this experience will be the topic of round table discussions during lunch, **we request that all board members attend and share in the fun.**
