From the President's desk...

Serving as CGCI's 45th President is an honor and a privilege. This president looks forward to meeting you and your fellow garden club members when visiting your district during the 2017-19 term.

Theme: "Plant America – California Style"

What is California Style? What did you think of when you saw "California Style?" Good, you are right! California Style is whatever our CGCI members make it and the possibilities are unlimited.

- **Diversity**-More than 20,000 CGCI members grow strong in California's very diverse 163,696 square miles. Fertile valleys; rocky, high-elevation mountains; sandy deserts; and salty, coastal locations provide gardeners with many challenges. Our garden club members, share their knowledge and experiences, rising to overcome, and thrive as they grow in the 20 different Sunset zones located in California. That is right, only four growing zones out of 24 do not exist in California.

- **Water**-How it is shared, used and conserved are perennial issues in California and we are all in it together. Whether, it is a drought year or not, educating our neighbors and communities about the options available for capturing water on their property, utilizing highly efficient watering systems, planting water-wise landscapes and using drought tolerant plants, are just the beginning of the possibilities as garden clubs play their role in the water challenge.

- **Making Connections**-Often we hear from clubs regarding the physical challenges of keeping up with their garden projects. Traditional thinkers would rule out the more physical activities forcing the club to cut activities or projects while settling for less. Considering and recognizing the needs of service organizations or individual youths needing community projects provides an opportunity to create win-win relationships and no one is forced to settle for less. The physical requirements of gardening do not lessen over time. Luckily, there are no rules stipulating that garden club members cannot teach others how to do and then supervise while completing the club's project. In this case, making connections within your community makes the difference. Our new Making Connections Resources and Outreach Chairman, Lynne Batchelor and her team, which includes 1st Vice President Shane Looper and 3rd Vice President Martha Smyser, will identify ways to find organizations most likely available to fulfill our needs while we fulfill theirs. This is just one of the examples of making connections. There are many more ways to provide our members, clubs and districts with the connections they need to become successful.

- **Education**-Garden clubs are about education, and hands-on education is important. Whenever you participate in a public event within your community, consider offering a hands-on activity. This provides them with a memorable experience and you with the opportunity to talk with the visitors about the hands-on activity and tell them about your garden club. Remember, we are all ambassadors sharing the love of gardening and the joys of garden clubs.
- **The 2017-19 President's Project** is Sustainable, **Ever-Growing Scholarships**, with donations split equally between the CGCI Scholarship/Donations and Life Memberships Fund and the CGCI Scholarship Endowment Fund. The first portion will allow us to increase the amount of money awarded OR the number of scholarships awarded starting with the 2019 scholarship year. The second portion will remain ever-growing as the investment "seed money" so to speak. The investment income realized will fund additional scholarships or increase the dollar amount awarded. Donors make ever-growing donations knowing their donations will continue to provide opportunities for scholarship recipients for years to come. What contributions will be made by these young professionals after they have completed their education and enter the workforce in their chosen field? **California Style!**

Meet the CGCI President...Krystal Migliore

One branch of Krystal's family tree came to California in the mid-1850s and settled in the central valley near Merced. A fourth generation Californian, Krystal was born in Modesto. Before her first birthday, her father received new orders from the Air Force and shipped out to Morocco. She and her mother relocated to Oroville to be near her grandparents while her father was overseas.

How did Krystal get involved in gardening? In her diaper and sundress... eating strawberries while sitting in, or rather on the strawberries plants growing in the red clay soil of Oroville. Coming from a long line of farmers and gardeners, she literally followed (or toddled) in the footsteps of her maternal grandparents as they worked in the garden.

Before entering kindergarten, Krystal's family moved to Gridley. Her family always had a garden and fruit trees while she was growing up and the whole family participated in planting, growing and harvesting. Her mother, Ilene has a magical "green thumb" and has a passion for growing just about anything including flowers, vegetables and fruit. Her father, Karl helps in the garden because he loves to eat.

Krystal's mother and aunt had been members of the Lake Oroville Area Garden Club for several years and finally, in May, 2010, she had time to attend her first club meeting. When no one was willing to serve as president, she volunteered. Over the next four years she served three years as president and one year as 1st Vice-President. She was elected Buttes District Director and subsequently CGCI 2nd Vice President.

2017 UC Master Gardeners Conference is OPEN TO CGCI MEMBERS!

Aug. 22 – 25 Hyatt Regency in Long Beach, CA

The UC Master Gardener Conference gathers together volunteers, coordinators, advisors, county directors, specialists and industry leaders from across the country to share stories, research, and the latest in home horticulture. Due to our spacious conference location and increased number of sessions we have the capacity to now include more garden interest groups.

You can now register and be full conference participants, learning from top experts about the latest in home horticulture research and information.

- 2 keynote speakers

**Project Mission Blue
Shane Looper, Chairman**

Phase II of the Mission Blue Butterfly project is off and running. This phase of the project includes planting twelve California native nectar plants for the Mission Blue Butterfly in Golden Gate National Parks while continuing to fund the propagation of lupine.

At the 2017 Convention in San Luis Obispo, Price Sheppy, Program Manager of the Parks Stewardship Program for the Conservancy, made a special presentation. He reported the success of the lupines this year due to the abundant rain-fall this past winter. The Golden Gate National Parks Conservancy is very hopeful that the spread of lupines will increase the Mission Blue species. The success of the lupine is due in large part to CGCI's funding for collecting lupine seeds as well as data on plant cultivation.

Thank you districts, clubs and individuals that have donated to the endangered Mission Blue Butterfly project.

Youth Activities:

Does your club sponsor or support a youth garden club or activity? There are two types of sponsorships:

- **ACTIVE:** The sponsoring group directly participates in planning/carrying out programs and activities of the youth group, i.e. holds regular classes or meetings, teaches fundamentals of horticulture, design etc.
- **DONOR:** The sponsoring group donates money or materials in support of youth groups or projects and takes NO active role.

If you are involved with a youth group and have not already done so, please let us know about the group. Complete and submit the [Youth Group Registration Form](#). The information will be included in the 2017-19 Yearbook, Manual & Roster.

PENNY PINES

Reminder: A new "webform" has been created to accompany checks to the Forest Service and to report the donations to the CGCI Chairman. The form is available on the website:

[Penny Pines Reporting Form](#) (Please DISCARD all previous Penny Pines forms)

The new form is similar to the annual dues form.

- Complete the form
- Print **TWO** copies (one to mail with check, one for your files)
- Click "Submit" to **automatically send the form electronically to the CGCI Chairman**. NO stamps, no searching for the mailing address!
- Mail check and form to the US Forest Service selected (no change here).

Remember - Checks are **payable to the Forest Service - NOT to CGCI**

Notes:

- ⇒ If your club Penny Pines chairman is not comfortable completing the form online, have the treasurer fill in the form at the time the check is issued. The treasurer can provide the printed copies to the chairman as needed.
- ⇒ The form does not need to be printed in color...change your printer settings to "grayscale" (black and white).
